RE: Current/Historical Records

USAF Aerostat Site

21 Miles w. of Marfa

U.S. Hwy 90

Marfa, Texas 79843

FILE: 15532/PDS No. 36276

To Whom It May Concern:

I would like to request information under the Freedom of Information Act for a property located at the USAF Aerostat Site, 21 Miles W. of Marfa, U.S. Hwy 90, Marfa, Texas 79843. We are performing a Phase I Environmental Site Assessment on the property. I have attached a drawing depicting the property.

Information of importance that I would like to review includes, but is not limited to, documents pertaining to underground storage tanks, aboveground storage tanks, fuel oil tanks, groundwater monitoring wells, drinking water wells, irrigation wells, past fires, environmental concerns, site management plans, environmental investigation reports, easement restrictions, environmental liens, hazardous materials storage/spills, petroleum storage/spills, assessor's card information, building permits, current and/or historical building structures, storm water discharge permits (both NPDES and SPDES), historical maps, utility maps, and tax maps. I would also like to know the Tax Parcel ID (or IDs) and the owner(s) if that information is available.

If there are charges for copies, please contact me at (585) 295-7707 prior to making copies so that I may understand what the costs are. I have a coworker who will be visiting the above property on Monday May 12; however, he's only in town for one day, so I would assume that if there are files you have, scanning/sending to me would be the easiest method since he may not have time to visit your offices.

Please do not hesitate to contact me with any questions or concerns.

Very truly yours,
O'Brien & Gere Engineers, Inc.

A handwritten signature in black ink that reads 'Anthony M. DiNardo'.

Anthony M. DiNardo, P.E.
Project Engineer
